

Gift to *Star 5/7/57* Gosford Hospital

Ettalong Auxiliary for Gosford Hospital members last week added to their reputation of being invaluable workers for the hospital when they presented a portable anaesthetic machine to board chairman Cr. R. Vaughan.

This follows the presentation by the auxiliary in March this year of a humidicrib.

The new anaesthetic machine weighs 28 lb and cost \$756.

Medical Superintendent Dr. I. Walters said it would be used mainly in the labour ward and would be "invaluable" because of its light weight.

The President, Mrs. Edna Hoare, supported by 20 auxiliary members, made the presentation to Cr. Vaughan.
